Notes:

Editing Your Static Website

Static Websites offer no user-editing capability as standard. It is however possible to integrate a basic CMS (Content Management System) into any static site built by Kikk. This enables website owners to make simple text changes and add images to pre-defined areas - great for websites that have just a few areas that need frequent simple edits e.g. a results page.

Basic training is provided for a nominal cost to ensure that site editors do things correctly and maintain the integrity of the site.

Editing Your WordPress Site

WordPress is an editable database that, once changed, uploads the newly edited web files to the web server. Having this CMS (Content Management System) allows users to make changes without ever looking at a string of html code or navigating around web folders.

Basic training can be provided for a nominal cost to ensure that site editors do things correctly and maintain the integrity of the site.

Please contact us for details.

WordPress Hosting & Maintenance

It is vitally important that WordPress installations are kept up to date, and constantly monitored for security threats. Hence, at Kikk, we offer a full service package to not only host your Wordpress site and database, but also to keep the installation, plug ins and security fully up to date.

If you are technically inclined you may undertake these updates yourself, and pay for just the hosting element. However, for the integrity of our server environment, we insist that updates are taken care of on a very regular basis. Failure to do so will lead to intervention by a Kikk support engineer without notice, and this work will be chargeable.

Please contact us to discuss this option

Domain registration

You can register domains yourself or through Kikk. The latter option means that we have easy access if DNS changes are needed, and we will take care of renewals. Whilst the domains may be registered to Kikk we guarantee to recognise your ownership and not obstruct any transfers if required. Domains registered through us are at cost with a £2.50 administrative charge at the point of renewals. Renewals can be annually or up to 10 yearly.
